TCL PLASTICS BREXIT PLANNING FOR HARD BREXIT 31ST OCTOBER

Dear Customer,

As Brexit looms on the 31st of October, TCL is planning how to best serve our customers to minimise disruption in supply.

TCL have no strategic supply pinch points with any product manufactured in the UK.

We do however anticipate a run on all logistics availability, warehousing and critically clearance at customs due to additional resources required for UK arrivals.

Based on consultation with our service providers we anticipate the timing on this disruption will most likely be the 2 weeks in the run up to the 31st of October and 2 weeks after.

TCL will double our efforts to maintain the highest level of service to our valued customers but please bear in mind that during this timeframe there may be some delayed deliveries.

We will be engaging with all TCL clients to ensure minimal disruption and contingency stock but would also ask you at this point to highlight any potential excess requirements you may have around this period.

Thanking you in advance for your understanding and if you have any questions please do not hesitate to contact us.
